

Community Navigators **Weather Closure Announcement**

Due to the nature of Community Navigators' mission, participants and staff are dependent on being in the the community to provide support. This means we rely on good driving conditions and public institutions to be open (like libraries ext...) For safety purposes CNI will close when the following occurs:

- A weather forecast for more than 2+ inches of snow or icy conditions during day program hours
- When flooding affects transportation
- When the governor declares a weather emergency and **asks** people to stay off the roads
- When the participants town or city closes due to weather.
- Any other dangerous weather conditions that CNI management deems dangerous to drive in

Due to the small size of Community Navigators we will not be posting closures on local TV stations but instead we will post updates on our website: www.CommunityNavigatorsInc.org, and will change the voicemail greeting on CNI's main line: 860-770-7078.

We are sorry for any inconvenience this may cause, but the safety of our staff and the individuals we serve is our main concern. When possible we will send home make-up day opportunities.

Thank you,

Community Navigators Inc
